Subject: RE: Need access to Wilton Hadoop cluster

Hey Joey,

Currently we have to use an RDP jump server to get into Wilton. The first thing you will need is an account created on the Wilton domain.

I am not sure what the process is between companies to make that happen. I believe Dean can provide input.

For example my username is:
> **Username**: cca-audit\jmiller.audit
> **Jumpserver IP**: 10.152.2.92

I know that when we got it online a few weeks ago there was no way to directly route to any of the servers in Wilton. This has caused some serious challenges as you can imagine.

Here is all the connection info (note you can only reach these from the jump server, not routable from internal iHT). https://confluence.ihealthtechnologies.com/display/ITOPS/Norwalk

norcrphdpprd04	Edge Node		10.1.99.27

Cloudera Manager: http://10.1.99.24:7180/cmf/home
Cloudera Navigator: http://10.1.99.24:7187/login.html
Hue web interface: http://norcrphdpprd01.ccaintranet.com:8888/accounts/login/?next=/
Oozie HTTP: http://norcrphdpprd01.ccaintranet.com:11000/oozie/
Namenode UIs
http://norcrphdpprd10.ccaintranet.com:50070/
http://norcrphdpprd11.ccaintranet.com:50070/
Reports: http://10.1.99.24:7180/cmf/clusters/1/reports

HiveServer2 Location: norcrphdpprd01.ccintranet.com

 HDFS HA Cluster URL: hdfs://norwalk-hdfs/

Impala URLs
Impala Catalog Server Web UI (norcrphdpprd02)
http://norcrphdpprd02.ccaintranet.com:25020/
Impala StateStore Web UI (norcrphdpprd02)
http://norcrphdpprd02.ccaintranet.com:25010/

Once we have you connected and operational at the base level, I will work with you to get you the specifics on what you might need.

Subject: Need access to Wilton Hadoop cluster

Justin, I am doing some work with the post pay guys in Wilton. Will need to be able to do the same things I do on the Atlanta cluster in Wilton. How do I get access? Also, what is the edge server for Wilton, and the URI for Hue?

In addition, can you give me what versions Wilton is on?
